

## **My portfolio:**

### **About Me**

**Hi everyone, I am Aditi Bagaddeo. I am currently pursuing my B.Tech degree in Computer science engineering. Domains I mainly work upon are web development, so my skills includes HTML, Bootstrap, CSS, Javascript. Apart from these, I work on datasets using python, Seaborn and pandas. Apart from my professional life, I work on music.**

### **My projects:**

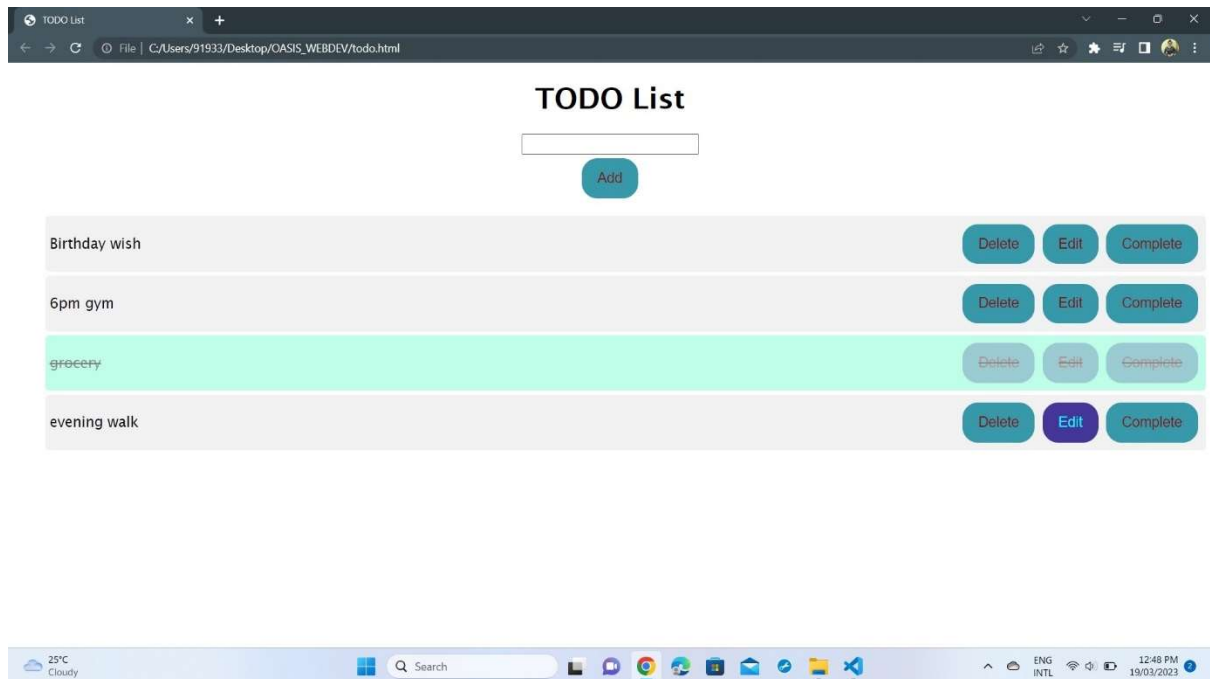

#### **Project 1: Calculator Webapp:**

**Project 1 is about creating a calculator using HTML, CSS and ofcourse Javascript. Here the calculator is designed to make calculations easy and accesible for all and the languages, I used in making this webapp were pretty much simple and understandable. Hope this Calculator would help others.**

## Project 2:

**The Project 2 is an TO\_DO list webapp. This webapp is being designed to organise and schedule your works in a convenient way. Here you add works to the list , if needed they can be edited to and once completed the user might delete the work to. So this webapp is easy to use and organises your TO-DO list the way you want.**
